Summary

Results-driven Data Engineer & Backend Software Engineer with 8 years of experience in Python, Go, PySpark, AWS, Snowflake, Databricks, Kafka, Airflow, and FastAPI. Expertise in big data processing, cloud solutions, backend development, and data pipeline optimization. Proven track record in building scalable data lakes, developing backend APIs, migrating petabyte-scale data to AWS EMR, and implementing data security solutions. Domain expertise in Healthcare, Insurance, Banking, and Marketing Sales. Holds AWS, Azure, and Databricks certifications.

Skills

Gen AI & tools: Agentic Frameworks - PydanticAI, Langchain, Langgraph & CrewAI. MCP & RAG Development. Tools like Github Copilot, Claude Code, Gemini

Programming & Scripting Languages: C/C++, Go, Python, SQL, Bash Scripting

CS Fundamentals: Data Structures, Algorithms, OOP, System Design

Development TechStack: Python, Flask, FastAPI, MongoDB, SQL, PyTest

Cloud Technologies: AWS & Azure

AWS - S3, Glue, Lambda, SQS, Kinesis, Firehose, EMR, Athena, Redshift, DynamoDB, CloudFormation, CodePipeline, AWS Batch, Secret Manager

Azure - Azure Databricks, ADF, Synapse

Big Data & Streaming Technologies: PySpark, Kafka, Hive,

Data Science: Pandas, Numpy, Dash, Scikitlearn, NLP

Data Warehousing & RDBMS: Netezza, Snowflake, Oracle, SQL Server, IBM DB2

Tools & Utility: Airflow, dbt, Kubernetes, Docker, Splunk, Salesforce, Git/GitHub, Jenkins, Tableau, Pepperdata, Snaplogic

Work Experience

Thoughtworks India Pvt. Ltd., Pune

Jul 2025 - Present

Senior Data Engineer

Tech Stack : Python, SQL, GCP, Snowflake, dbt, Git, Airflow, Kafka

- Worked for Retail and ECommerce Client to migrate the database from Legacy Exasol Database to Snowflake & dbt.
- Migrated 400+ tables with refactoring in business logic, handling TBs of data for Orders, Returns, Marketplace, Compliance & Payments.
- Developed services & products for product recommendation, Risk Assessments for Partners, SLA Violations for Partners and Rule Engine for Partner Management.
- Worked on implementation of CI/CD pipelines for automated code deployments and managing cloud infrastructure using Terraform.

Globant India Pvt. Ltd., Pune

Feb 2022 - Jul 2025

Data Engineer

Tech Stack : Java, Python, PySpark, AWS, Snowflake, Git, Airflow, Kafka

- Played a key role in the development of a Lambda Architecture-driven Datalake on AWS, implementing both real-time and batch processing capabilities to ensure efficient data handling and analytics.
- Contributed to the development of Glue jobs using PySpark, processing 100s of GB of data from JDBC databases and Kafka, enhancing data integration and processing capabilities.
- Led a Proof of Concept (POC) initiative focused on data tokenization for masking PII/PCI data fields, ensuring enhanced data security and compliance.
- Led the migration of Hive and Presto jobs for 700+ tables having Petabytes of data from On-Prem to AWS EMR, enhancing availability and significantly reducing operational costs.
- Worked on POC for Capacity planning to calculate the vCPU cores required for migrating the jobs from AWS EMR to EMR Serverless.
- Delivered 120M+ customized insights based on product usage patterns & delivered them to customers to optimize efficiency.
- Optimized the Airflow dags for cost using the Pepperdata.

- Designed and developed an end-to-end data enrichment workflow in Databricks, integrating data from multiple sources to generate lead in real time for the GTM team. Implemented matching algorithms to identify Ideal Customer Profiles (ICP), enabling targeted marketing campaigns and improving conversion rates.

IBM, Pune

Apr 2019 - Feb 2022

Big Data Engineer

Tech Stack : Python, PySpark, Hive, Databricks, Oracle, SAS, Salesforce, AWS, Git, Tableau, NLP

- Modernized data pipelines from SAS to Spark for the Member Feedback Analytics Team, enhancing data processing efficiency and scalability.
- Designed, developed, and maintained end-to-end data pipelines for NPS (Net Promoter Score) and VOM (Voice of Member) dashboards, enabling data-driven decision-making.
- Led the design and development of data warehouses and reporting solutions to meet organizational needs.
- Automated data capture from third-party survey tools and Salesforce, improving data accuracy and efficiency.
- Implemented dashboards and data visualizations using Tableau Desktop and Server, providing actionable insights to stakeholders.

Infosys Ltd., Pune

Dec 2016 - Apr 2019

Senior System Engineer

Tech Stack : SQL, Python, Hive, Scoop, Informatica, Control-M, Jenkins

- Designed and implemented Hive solutions for data warehouse management and analytics, encompassing data modeling, query optimization, and ETL processes to enhance organizational data capabilities.
- Created optimized workflows and ETL solutions, mapping and workflows through Informatica.
- Worked on development of fast and optimized SQL Queries.
- Supported high priority defect fixing, change request implementation, status reporting, defect tracking.

Awards and Certificates

- AWS Certified Data Engineer - Associate
- Microsoft Certified: Azure Data Engineer Associate
- Databricks Certified Associate Developer for Apache Spark 3.0
- Apache Airflow Fundamentals

Education

Dr. D.Y.Patil Institute Of Engg. & Tech, Pune Aug 2012 - Jun 2016
B.E. in Mechanical Engineering **CGPA: 7.96/10**
